

Mold Shop Technician - Night Shift

Your tasks

YOUR TASKS

Responsible for maintaining employee training and qualification records while supporting curing press operations, tooling maintenance, quality requirements, and production readiness. This role requires strong mechanical aptitude, troubleshooting skills, adherence to safety standards, and the ability to maintain molds, equipment, and product quality throughout the manufacturing process.

HOW YOU WILL MAKE AN IMPACT

- Maintain employee skill matrices, qualification records, and department headcount data.
- Set up, operate, and monitor curing presses while ensuring compliance with safety and quality standards.
- Perform mold, bladder, and tooling maintenance, including inspections, cleaning, assembly/disassembly, and changeovers.
- Troubleshoot equipment and tooling issues, perform repairs, and initiate corrective and preventive actions to improve performance.
- Read and interpret specifications, drawings, procedures, tolerances, and quality requirements.
- Conduct final product inspections and quality checks using control panel interfaces and measurement tools such as calipers, micrometers, and dial indicators.
- Follow plant safety, environmental, quality, and 5S standards while working effectively as a self-motivated team member.
- Respond quickly to equipment downtime, communicate issues to supervision, and report any conditions that could impact product quality.
- Be self-managed, detail-oriented, and capable of performing under pressure.
- Follow all plant, ESH, CBS, quality, and department processes and procedures.
- Other duties as assigned.

NOTE: May not be inclusive of all work required and may be updated as needed
