Internal - Lead Tooling Technician (Lead Die Maker) - Die Shop

Descrição da função

YOUR TASKS

Serves as the primary coordinator for die shop activities, trials, and cross-functional collaboration while driving safety, performance, tooling improvements, and team development. Acts as a liaison between management and employees, ensuring operational effectiveness, compliance, and continuous improvement.

HOW YOU WILL MAKE AN IMPACT

- Serve as the primary contact for sequencing and Product Industrialization (PI) in coordinating trials and experiments.
- Manage procurement activities for the die shop, including orders and shopping carts.
- Partner with mixing and other departments to improve compound performance and tooling design.
- Oversee and report on die shop operations, activities, and KPI performance.
- Act as the liaison between hourly employees and management, escalating unresolved issues as needed.
- Lead, mentor, coach, and help train die makers to build a capable, self-directed workforce.
- Promote, monitor, and enforce safety, quality, environmental, ISO, and company policy compliance.
- Support problem-solving initiatives using established methodologies (CBS, 5 Why, 4D) and participate in related meetings.
- Coordinate attendance, vacation communication, and workforce needs with management.
- Demonstrate strong multi-tasking, flexibility, and leadership to meet departmental objectives and drive continuous improvement.
- Be self-managed, detail-oriented, and capable of performing under pressure.
- Follow all plant, ESH, CBS, quality, and department processes and procedures.
- Other duties as assigned.

NOTE: May not be inclusive of all work required and may be updated as needed.
