AI Security Specialist

Vaše náplň práce

As an AI Security Specialist you will influence how applications and AI-enabled solutions are designed, assessed and governed-turning complex security standards into practical guidance that enables innovation while protecting our global business.

You will combine hands-on security assessment with consulting, governance and cross-functional collaboration:

- Evaluate, review and approve AI-enabled, client, mobile, add-in, web and other applications;
- Assess solution, product and architecture documentation for security risks and compliance;
- Review security checklists, document outcomes and approve solutions within delegated authority;
- Provide Cybersecurity consulting to IT and business functions, particularly for AI-related initiatives;
- Define and maintain application and AI-security rules, standards, guidelines, checklists and guardrails;
- Support cybersecurity audits, tests and assessments, and help stakeholders address identified findings.

Váš profil

- Academic degree in Cybersecurity, Information Security, Computer Science, IT or a comparable qualification;.
- 3+ years of enterprise IT experience, including cybersecurity or application security;
- Practical experience assessing applications, architectures and AI-enabled solutions for security risks;
- Experience applying standards and frameworks such as OWASP, NIST, CIS and ISO/IEC 27001;
- CISSP, CCSP, CSSLP, or an equivalent recognized certification (is an advantage);
- Strong knowledge of Cybersecurity architectures, web application security, authentication and encryption technologies;
- Ability to communicate security requirements to technical and non-technical stakeholders;
- Experience collaborating in international, cross-functional teams and influencing decisions without direct authority;
- Advanced English skills (verbal and written).
