

Quality Engineer - Hot Prep.

Your tasks

The Quality Engineer - Hot Prep will be responsible for leading quality initiatives and driving operational excellence within the manufacturing environment. This role encompasses team leadership, continuous improvement, strategic resource management, and quality assurance across all production processes.

Key Responsibilities:

Quality Assurance & Process Control

- Conduct process audits and inspections to ensure compliance with quality standards and manufacturing specifications
- Investigate quality incidents and non-conformances, leading root cause analysis and implementing corrective actions
- Oversee equipment calibration and maintenance schedules to ensure measurement system accuracy
- Manage supplier quality assessments and maintain quality documentation in accordance with regulatory requirements

Quality Technician Management & Development

- Manage and direct quality inspection staff, providing comprehensive training and professional development opportunities
- Conduct regular performance evaluations of inspectors in accordance with established quality management standards
- Establish and maintain competency frameworks to ensure inspectors meet required quality standards and certifications

Continuous Improvement & Budget Oversight

- Lead continuous improvement initiatives across departments whilst maintaining a strong internal supplier-customer orientation
- Participate in the annual budgeting process to ensure optimal allocation of quality department resources
- Develop and implement quality metrics and key performance indicators to monitor departmental performance

About us

Continental develops pioneering technologies and services for sustainable and connected mobility of people and their goods. Founded in 1871, the technology company offers safe, efficient, intelligent and affordable solutions for vehicles, machines, traffic and transportation. In 2021, Continental generated sales of €33.8 billion and currently employs more than 190,000 people in 58 countries and markets. On October 8, 2021, the company celebrated its 150th anniversary. With its premium portfolio in the car, truck, bus, two wheel and specialty tire segment, the Tires group sector stands for innovative solutions in tire technology. Intelligent products and services related to tires and the promotion of sustainability complete the product portfolio. For specialist dealers and fleet management, Tires offers digital tire monitoring and tire management systems, in addition to other services, with the aim of keeping fleets mobile and increasing their efficiency. With its tires, Continental makes a significant contribution to safe, efficient and environmentally friendly mobility.
