

Java Developer (Fleet Solutions)

あなたの仕事内容

Are you a technology enthusiast? Do you enjoy developing business-critical applications and solving complex technical challenges? Are you passionate about software development and modern technologies? Then we have the right opportunity for you: a challenging IT career as **Java Developer**.

We are ContiTrade, the fast-moving and agile trade organization of Continental. With over 1500 own branches and franchise partners we offer high quality products and car services across EMEA.

Join us to shape the future of ContiTrade!

What awaits you?

As a **Java Developer**, you will support the development, enhancement, and operation of ContiTrade's Fleet Solutions, a business-critical platform serving fleet customers and partner networks across EMEA. Working closely with developers, solution architects, product owners, and business stakeholders, you will contribute to the design and implementation of reliable, scalable, and secure software solutions.

Your responsibilities

- Develop, maintain, and enhance Java-based solutions
- Analyze business requirements and translate them into technical solutions
- Support application integrations with internal and external systems
- Collaborate with team members to design scalable and maintainable software architectures
- Troubleshoot, debug, and resolve application issues
- Participate in testing, code reviews, and quality assurance activities
- Support application operations, upgrades, and continuous improvements
- Contribute to incident, change, and service management processes
