

IT Infrastructure Engineer

หน้าที่ความรับผิดชอบในงานของคุณ

Provide ownership and day-to-day support for all IT services across Rugby RDCs and tyres depots across the country, ensuring the availability, security and performance of systems that underpin warehouse and distribution operations. Deliver a high standard of customer service through effective Level 1-3 support, strong stakeholder engagement, adherence to compliance requirements, and the development of clear technical documentation and operational processes.

Act as a key member of the UK IT team, supporting and enhancing infrastructure technologies including networking, VMware, Citrix, storage and disaster recovery solutions. Contribute to IT projects, continuous improvement initiatives, automation opportunities and vendor management activities. Ideal for an individual seeking to develop their leadership capabilities, with opportunities to deputise for the IT Manager and provide technical guidance across the support function.

โปรไฟล์ของคุณ
